

Junior Journal

Theme: Nursery Rhymes

Language Arts: This week, many “Nursery Rhyme” books and flannel board stories will be shared. The children will learn to develop a sense of rhythm through the use of musical instruments. The children will also learn how to echo, focusing on the volume of our voices.

Concept: This week we will be learning about how the seasons change! What will happen outside with the coming of Fall? We will use our senses to find out. During class, we will examine sizes of cylinders and discover how to manipulate bottles and lids.

Craft & Writing: Learning how to print our two new letters will keep us busy this week. We will use our handprint to create a cat for the letter C and a dog for the letter D. Many more fun crafts will be created this week as well.

Motor: We will be utilizing the playground this week to make sure the most out of this beautiful fall like weather. The children will practice balancing, and following directions with our new action words *run* and *jump*. Please be sure your child wears gym shoes for outside time.

Student of the Week

Next week we will begin our “Student of the Week” project. We are looking forward to learning about our Junior students throughout the school year!

As we head into the season of **Fall**, we would like each student to bring in examples of this new season to share with their class.

Our center will be closed Monday, October 9. On this day, the teachers will be participating in continuing education classes.

Have a great week!
