Theme

A Trip to the Zoo

This week the children are introduced to the zoo. We will learn about animals and their habitats.

Mrs. Vickie would like each child to bring in a stick or leaf you have found near your home. We will use these items to compare in our science class.

Our center will be closed Monday, October 9. On this day the teachers will participate in continuing education classes.

Mrs. Cheryl, Mrs. Vickie, Mrs. Joanie, Mrs. Amy and Mrs. Lauren

Introductions

Letter: Aa

Student of the Week

Carissa Drozd

Avery Pearson

Mackenzie Shulman

Jack Yunker

Language Arts: The children will love learning about the letter "A" through the song *A is for Amos*. This song teaches the children about the different sounds each letter in the alphabet makes. Each time a new letter is introduced, we will add a new verse to this song. We will learn about a variety of zoo animals as we learn the finger play "*Going to the Zoo.*"

Concept: This week we will introduce upper and lower case Aa. We will continue to work on the concept of big and little. The science table will be open for exploration.

Craft & Writing: This week, we will be creating many fun animal art projects for zoo week. We will also be tracing and finger painting upper case "A" and lower case "a."

Motor: This week we will introduce the ball and wand, and block bowling to develop eye/hand coordination. An obstacle course will be set up using the stair step and tunnel. We will continue implementing other activities that have been introduced since week one.
