Lesnicki (taken home September 29th and returned to school October 2nd)

Word Wall Words- go, I, see, jump, look

Introductions- Letters: Mm and Nn

Author Study- Laura Numeroff

Language Arts: We will continue to discuss popcorn

words. These are words that we see often in everyday print. We will be reading stories that include some of our new words. As a group, we will search the story for popcorn words. We will "butter" those words with our yellow markers. The class will work on building a sentence activity which will give the students practice reading words, and organizing words to make a sentence. We will spend the day on Tuesday, September 26th celebrating Johnny Appleseed! Our apples will be used for a fun graphing activity, estimating apple seeds and of course a delicious snack!

Math: We will be counting and tracing by 10's up to 100! We will practice simple addition and complete the corresponding pages in our math workbooks. The children will be introduced to simple fractions. We will begin with the fraction $1/2$.

Science: This week our science experiment uses magnets. The children will experiment with various items to see if they are magnetic or not. We will also discuss the importance of wheels, machines and tools as we have a discussion about simple machines. We will discuss stranger danger and the boys and girls will learn that a stranger is a person they do not know. Our class will make a list of safety rules for strangers and then the children will learn to yell, scream, and run to defend themselves from strangers.

Social Studies: We will discuss our upcoming holiday, Columbus Day and continue to practice our home addresses and telephone numbers. Please help your child learn these concepts at home.

Art: Look for fall and Halloween craft to be displayed around our classroom!

NOTES TO PARENTS:

- * BIRTHDAY WISHES 9/18 LIAM 9/20 MAKENZIE MICHAEL 9/28 AND ALYSE 10/1
