

Theme: Fall

This week we will be learning all the wonderful things that happen during the season of Fall. We will talk about the weather, flowers, and leaves. If weather permits we will enjoy a nature walk and collect leaves and sticks for our science Table.

Concept: Mrs. Elaine will introduce The Brown Stair and Fall Bin. The children will be rote counting 1-20. They will be using our tactile box and asked, "what do you have?" The children will also be playing with the watertable using the ping pong-scoop.

Language Arts: Mrs. Taghrid will introduce a "Fall" think link. Please allow your child to cut out pictures from magazines that would pertain to the season of "Fall". She has a wonderful assortment of fingerplays and flannelboard stories to share with your children about our new season. She will also be introducing Fable #2 (The Hare and the Tortoise).

Art and writing: The children will be using fingers to paint a tree and coloring fall pictures. Mrs. Elaine and Mrs. Jacqueline classes will be practice writing A & B, decorating leaves, and drawing faces on scarecrows.
