Author Study-Tedd Arnold

Language Arts: We will be writing in our journals over the next two weeks about animals. When journal writing we focus on proper letter formation, capital letters, finger spacing between words and punctuation to end a sentence. Practice with vowel sounds, letter blends, and sight words will be other activities the children will participate in the upcoming weeks.

<u>Math:</u> Our focus will be on money and the boys and girls will keep reviewing the names of our coins and the value each coin is worth. Students will also practice patterning with coins by making coin rubbings with crayons. During class we use this fun song to help review our money!

(Are you Sleeping tune) Penny Penny. Penny Penny Worth one cent. Worth one cent Nickels are worth five. Nickels are worth five

Dimes are ten. Dimes are ten Quarter Quarter. Quarter Quarter Twenty five. Twenty five That's what they are worth That's what they are worth Let's count coins. Let's count coins Science: The next two weeks we will learn all about animals. We will look at how different animals can be born alive or hatched from an egg. Also we will talk about how each animal moves in their own special way. Some hop, crawl, swim, fly or gallop. We will explore a large variety of animals and identify how and why they are different.

<u>Social Studies:</u> We will talk about George Washington and Abraham Lincoln this week. We will have activities honoring these two great men as well as the other presidents.

<u>Art:</u> As the month of February is coming to a close in the next few weeks we will spend time talking about dental health. During this time students will learn why it is necessary to clean and take care of their teeth. We will discuss the importance of proper brushing and flossing habits along with visiting a dentist to get a check-up. We will even have a fun craft project painting with toothbrushes!

NOTES TO PARENTS:

*Happy Valentine's Day! Valentine class party!! Please bring you child's decorated Valentine box to school today. We have 10 classmates 2 girls and 8 boys

*Monday 2/19 Parent-teacher conferences today. No Preschool today. Regular classes resume Tuesday 2/20

*Tuesday 2/20 music day
