

Kindergarten Newsletter

March 19-23

Theme: Spring/Easter

Language Arts

We continue to work on digraphs and blends. The children have really been doing well with recognizing blends and digraphs in their leveled reading books. We have started talking about contractions (two words joined by an apostrophe) and compound words (two words combined to make a new word).

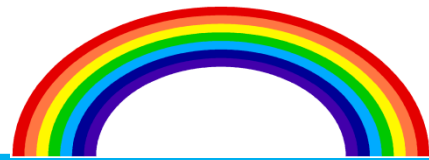

Social Studies

Tennessee and Texas are added to our United States map study.

Science

Ms. Mistina is going to try a rainbow color experiment with the class.

Math - This week brings plenty of practice counting coins, telling time, addition and subtraction.

Spring day celebration will be March 20th and 21st, so wear your PURPLE!!
