

Two's News Week 37 April 23-27

Topic: Creepy Crawlers

Concept:

Ms. Kat is so excited to introduce the numbers 9 & 10. She will keep the children busy this week sorting butterflies, ladybugs and spiders. Caterpillars will aid the children in their understanding of long and short. The water table will once again allow the children to practice their pouring skills. The children will enjoy digging for creeping crawlers in the sand table and counting how many they can find.

Motor:

Mrs. Nicole will practice bouncing and catching skills. Ms. Kim will concentrate on the balance beam and Ms. Kat will have their little legs moving outside as she focuses on running.

Language Arts:

Ms. Kim is so excited to share two of her favorite books with the children, "The Very Hungry Caterpillar" and "Shoo Fly". What bug week would be complete without our favorite tunes, "The Itsy Bitsy Spider" and "Bringing Home a Baby Bumblebee"?

Bits of Intelligence: Mammals

Introduce: 9 & 10

*Teacher
Appreciation
Week*

May 7-11

Jacob Ruzich is
now wearing
underwear!

Craft & Writing:

Mrs. Nicole will make butterflies with the children. Ladybugs will fill the air as the children use the dot painters to give them color. Our readiness papers will feature our two new numbers 9 & 10. Mrs. Nicole will have the children working with pencils in preparation for their upcoming move to the Junior room. Shhh, we are working a special project for Mother's Day.
