

Pre-K Update

Week 35 Topic: Birds April 9-13

Introductions: Story #10(new story word: Boat, My, Blue)

Vocabulary - zany - outlandishly comical

yeild - to gie over, to give away, to give up

Language Arts

Ms. Jen's topic of discussion is birds this week. She will talk about the different characteristics of birds as well as the different species. We will take a nature walk in our own backyard and see what types of birds we can find.

Motor

In Ms. Cheryl's Motor class the children will continue going outdoors. The children will enjoy different variations of the obstacle course using hula hoops, etc. Kicking at a target is sure to improve aim. Group games will be enjoyed during outdoor time.

Concept

Mrs. Ann's class is ready to begin counting from 1-50. She has been working hard on the concept of odd and even. Backwards counting from 20-1 has been great fun for the children. To reinforce the concept of distance, the class will measure the number of "feet" between two objects. Grab your binoculars...bird watching is on the agenda. We will be counting by 2's and 5's.

Craft and Writing

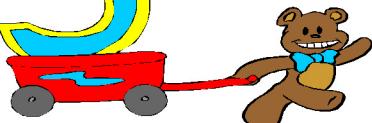

Mrs. Melissa will incorporate our fine feathered friends into our readiness papers. One includes a dot-to-dot bird, another a robin worksheet to color. We will end the week with a bird craft.

Spring Pictures - April 17th

Field Trip - April 18th to Jump Zone
