

Pre-K Update

November 5-9

Week 12

Theme: Native Americans

Worth School

2018

Concept

We will begin to discuss our five senses. This week we will work on touch. In math we will work on moving forward and backwards on the number line. This will help the children to recognize their large numbers.

Craft and Writing

Printing papers Kk and Ll will be added to the art shelf for extra practice. Look for a cute number review as well as a Kk and Ll practice paper.

Language Arts

Our topic of discussion will focus on Native Americans and Thanksgiving. We will have stories to support our theme. Fingerplays such as "Do the Turkey Hop" and "Turkey" will be introduced. Oral language activities are a great way to help us develop a greater vocabulary and also just to get us talking with our group. Our activity this week will be to discuss what's wrong with this picture? Many silly cards are shown and the children love to decipher what's wrong with it!! We continue to review stories 1-4 in addition to our new story, "I Can."

What's New

Introductions: Kk, Ll

Story #5 - new words - I, Can, can

Vocabulary: knowledge - understanding gained through experience or study

Motor

In the motor room the children will enjoy a large pictograph obstacle course that includes a tunnel to crawl through, walking backwards on the balance beam, ball and wand, hopping through hula hoops and tossing balls through hoops into baskets. A bean bag "toss across" will help us review our numbers and letters. Musical rugmats will keep us moving throughout the week.

Happy Birthday

Braydon Cox 11/4

Gabriela Crofton 11/4

Lily Zayas 11/4

Reese Wieniecki 11/1

Thank you to our Parent Volunteers who helped out at our Halloween Parties!
