

Pre-K Update

Topic: Healthy Kids,

Doctors and Nurses

January 21-25

Introductions: 15, 16 & Octagon,
Story #8

Quota— an allotment or
proportional share

Rectify—to make correct

Manners: Say “excuse me”.

Do not tattle.

Language Arts: The children continue to work on the -ad and -at word families. We will also practice our reading stories. Our theme of Doctors, Nurses and Health will be enhanced using books, puppets and more.

Concept: Discussion time will center around Winter weather. Several tactile bag and compare and contrast activities are planned for the week. For example—the children will discuss the differences between a pen, pencil and a crayon. Mrs. Ann is working on ones place value using our golden beads.

Happy Birthday to Owen
O’Shea on 1/23

Craft and Writing: Ms. Jen will use printing papers to introduce the numbers 15 & 16 and the shape Octagon. We have been working hard to complete our printing papers necessary for our February conferences. Everyone is doing a great job. We are now focusing on printing our names. Reminder, only the first letter is a capital.

Motor: The children will be up and moving in Motor class as Ms. Cheryl creates a challenging obstacle course. We end the week playing rock the boat. The Hokey Pokey will be a fun way to review body parts.

Parent Conferences

There will be no school for half day (9:00-12:00) students on Monday, Feb. 18th and Tuesday, Feb. 19th due to Parent Teacher Conferences. Keep an eye out for your child to bring home a form with your scheduled time. This is a great opportunity to discuss any concerns you may have, discuss Kindergarten options and to see what your child has learned this far.
