Theme

Colors

We will be exploring colors in new ways. The children have already learned several colors, but through art concept and stories they will learn a different perspective of colors.

*Mrs. Cheryl, Ms. Vickie,
Mrs. Joanie, and Miss Michelle*

Language Arts: Colors is such a wonderful theme. There are so many Language Art mediums to enhance this theme. Several Dr. Seuss books involve colors, and a great finger play, "Color Rhyme," is always a lot of fun. "Color Fruits" is a puppet play and "Colors for Painting" is a wonderful flannel board story. The children really enjoy our two listening activities. "Head, Shoulders, Knees and Toes" allows them to get up and moving, and "The Colors I See" gives each child an opportunity to shine on their own.

Concept: Counting colors will enhance both our theme and develop number skills. At the water table, the children will experiment with colored ice cubes. Sorting jobs from our shelves will reinforce big, little, and color.

Craft & Writing: Our review of the colors we have learned will focus on two colors each day of the week. We will also celebrate Dr. Seuss' birthday this week. His stories "1 Fish, 2 Fish, Red Fish, Blue Fish" and "Green Eggs and Ham" are perfect for our color theme. We look forward to a fun art week.

Motor: Color Hat Toss is a great way to review our colors and develop eye/hand coordination. A color relay race will get our leg muscles into shape. Stretching exercises will help to keep our bodies limber.

Happy Birthday!

Cameron Swank 3/1

Reminders and Upcoming Events

- Have you registered for the 2019-20 school year? There are spots still available. Request your registration form today!
- **St. Patrick's Day celebration**-Friday, March 15. Wear something green!!
