Theme: Colors
Week of 2/25

Concept: We will review our colors by matching pom poms to the same color in a muffin tin. In the water table we'll match fish to the right color bowl and catch the fish using nets. The water table is one of our favorite activities, we always have so much fun!

Language Arts: The boys and girls will be enjoying flannel board stories dealing with colors this week. I bet our favorites will be "Party Hats" and "Make a Rainbow." Ms. Katelyn and the class will enjoy the flannel board story called "Brown Bear, Brown Bear What Do You See?" and will read a new story called *Pete the Cat: I Love My White Shoes*. What a fun colorful week it's going to be!

Art: Each day in art this week we will review a pair of colors by making a collage. We'll be doing all our favorite things like finger paint, watercolor, and markers.

Motor: We are going to play a game where we toss the colored balls in the same color bucket. We love putting different colored balls on top of the parachute and watching them fly as we move the parachute up and down! We'll also reinforce our colors by rolling a cube and standing on the same colored circle that the cube lands on.
