

Pre-K Press

Week 36 April 23rd-27th, 2018

Theme: Reptiles and Amphibians

Language Arts:

Snakes, turtles and lizards, oh my! We will begin our discussion on reptiles this week. The children will learn what is a reptile and how they live. If you have any pictures of reptiles at home, please bring them in to show with the class! Thanks. We will also read many different books about reptiles, as well as some finger plays.

Motor:

We all have ants in our pants! We are so ready for Spring to be here. Hopefully, the weather cooperates and we can enjoy the playground! If not we enjoy pretending to be crocodiles to go along with our science experiment!

Concept

Oh no, it's a little salty in the ocean! Our science experiment with salt and fresh water will help our students to understand how

crocodiles bodies adapt from fresh to salt water!

Craft and Writing:

The children will enjoy coloring pictures of reptiles. We will also have fun making a reptile project. Keep a look out for review papers in your children's files. Remember to use upper case and lower case letters when practicing writing your child's name. Thank you to all who came to our Literacy night! The children were so proud to show off their work!
