

J R _ J O U R N A L

Week 27

February 18th-22nd

Topic: Zoo/Hooved Animals

Introduce: Story #4 - Come, Taffy, Apple

Craft & Writing

It's literally a zoo in Ms. Sam's class as the children create many of the zoo animals they have been learning about. Our readiness continue to reinforce our letters.

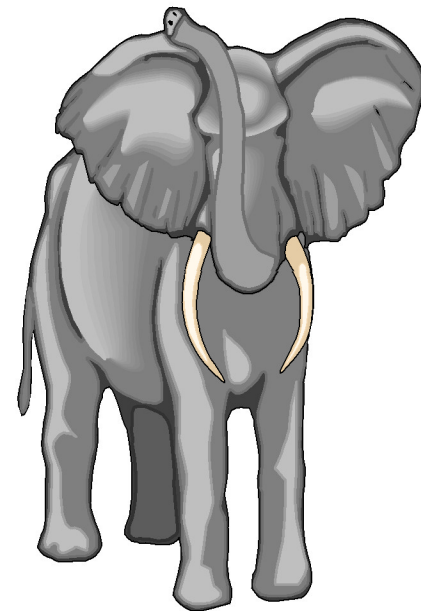

Concept

Mrs. Barb will begin to discuss animals with the children. We will look at similarities and differences and talk about the animals appearance, what they eat and where they live. The children will work on patterning and Mrs. Barb will discuss the five senses as part of our science study. Opposites will be discussed.

Language Arts

This week we will journey through the hoofed section of the zoo, focusing on such animals as the zebra, elephant, giraffe, hippo and rhino. Mrs. Jackie is sure to bring these animals into the spotlight through various stories and fingerplays. We will review reading stories 1-3 before adding story #4.

Class Mascot
Each homeroom has a mascot that the children will have a chance to take home for a few days and have some fun with. Take good care of our mascot. Have fun!!

Motor

An old favorite, "Duck, Duck, Goose" is on the agenda for this week. Ms. Hollie will also take out the tumbling mat and give the children the opportunity to act like different animals. We get into the animal spirit as we dance around to our favorite CD titled Animal Action. A fun crawling race will be enjoyed, along with kicking a ball at a tower of blocks.

Registration is now open to the public.

Register now, spaces fill quickly!!
