

# Two's News

March 4-8

Topic: Shapes

Week 29

## **Introductions:**

Oval and Rhombus

## **Bits of Intelligence:**

Musical  
Instruments

## **Concept:**

Ms. Sara will keep the children busy as they explore a variety of textured shapes at the shape table. Our group activity will consist of sorting shapes of various sizes and colors. The children will also enjoy scooping shapes out of the water as well as working hard on shape puzzles and shelf jobs.

## **Language Arts:**

Mrs. Christine has many fun songs and fingerplays for the children to learn this week. Among them are "Sally the Square" and "The Circle".

We'll discuss what shapes have three sides and what shapes have four sides.

A shape hide and seek game will end our week.

## **Craft and Writing:**

Oval and rhombus will be decorated using a variety of mediums when Mrs. Nicole puts the children to work this week. Other shapes such as circle, square, rectangle, triangle will be reviewed as well. All sorts of different shapes will be created as we wind the week up with playdoh.

We will mosaic using different shapes.

## **Motor**

The children will enjoy getting into "shape" as they practice jumping from shape to shape. We will also use our shapes for target practice. The Ball and Wand will also be enjoyed.

Happy Birthday

Michael Fietko
