

Pre-K Update

Week 10 Oct.19-23

Topic: Safety & Fire

Concept

We will measure distance using footsteps this week. First, they will estimate how many steps they think they will take going from place to place, then see how close they came to the number.

A game of What's Missing? will help to sharpen the children's visual memory skills.

Our topic of science discussion will be seeds and how they scatter and grow.

Craft and Writing

This week our readiness papers will focus on the numbers 9 & 10. The children will practice printing these numbers, as well as add them to our tens frame.

A fire safety coloring sheet and craft will be added to the fun.

Language Arts

Story number 4 will be introduced this week, featuring the new story words See, Me, me.

Fire safety pictures will "spark" our conversation.

Our daily phonics board will feature the letters A-J and we will have a fire fighter review.

Motor

The tumbling mat will be brought out for us to practice "get low and go" and "Stop, Drop, and Roll" to support our theme.

The ball and wand will be used this week.

The balance beam will be elevated on one end as the children attempt a heel/toe walk.

What's New

Introductions: 9 & 10, Story number 4: See Me
Story Words: See, Me, me

Expressive Vocabulary:
Keen: Sharp or quick in seeing, hearing or thinking.
