Oct. 19-23 Week 10 Theme: Just for Fun

## Language Arts

It's a week of fun favorites! We will get the children's fingers moving as they pretend to be Five Little Monkeys teasing Mr. Crocodile, Five Little Ducks swimming in the water and Five Green and Speckled Frogs. We're Going on a Bear Hunt and Itsy, Bitsy Spider are two of the children's stories that will be shared this week. We couldn't forget playing kitchen, an all-time favorite with the Two's class.

## Concept

We will introduce two new shapes to our shape sort activity, triangle and rectangle. Block play will help us better understand these new concepts. The children will have loads of fun using rectangles, squares and triangles to build haunted houses. We will also work on several one to one correspondence activities. We end our week with a fun shape hunt around our classroom.

## Motor

We love the fresh, fall air! Running outside and ball play will be our motor activities this week. The children have been enjoying our morning dance routine. Dancing helps us to shake our sillies out!

## What's New

Introductions: triangle and rectangle

Manners: Say Thank you

## Craft and Writing

We will finger paint our new shapes, triangle and rectangle and use our fingers to trace them. We will make a fall scarecrow craft using our new shapes. We will add in some of our fun favorites too! The children will end the week at the easel using fly swatters to paint Five Green and Speckled Frogs.

Halloween Parties are Oct. 29<sup>th</sup> and 30<sup>th</sup>. The children are welcome to dress up, however please refrain from sending snacks or goodies from home. Thank you.
