

Two's News

Introductions: Brown and Purple

Bits of Intelligence: Butterflies/Moths

November 30-December 4 Week 16 Theme: Families

Families

Language Arts

The countdown to Christmas begins. We are starting to introduce Christmas songs to the children. Two new fingerplays will help to expand our theme of families, they are titled "The House" and "Special Families". Our favorite flannel board "Brown Bear" will help to reinforce colors.

Concept

The children had so much fun building houses for their families. We will also review our size seriation by sorting items small, medium and large. Sorting colors will help reinforce our two new colors, purple and brown.

Craft and Writing

We will have brown and purple everywhere by the end of the week. We have really been reinforcing manners at snack/mealtimes, eating with a spoon and talking with an empty mouth. Play-Doh will be enjoyed by all as the children get the opportunity to cut it up with scissors.

Motor

The balance beam will be used this week. We will also focus on body parts and ball and wand skills.

Class Project

We are creating an All About Me book to share with the class. Please complete and return your child's page. Thank you.

Grab Bag

Santa will bring grab bag gifts for the students to be distributed on party days. The cost of the grab bag is \$5.00.

Don't forget to label all winter coats and accessories.
