

Pre-K Update

Week 31 March 15-19 Theme: Spring

Language Arts

Hooray for Spring! With the warmer weather on the way at last, we are ready to celebrate Spring in Ms. Jen's room. She has a wonderful assortment of fingerplays and poems to share with the children. We have been working hard on building words and will begin learning to build sentences using our reading story words.

Concept

Mrs. Ann has the children talking all about the changes in weather and other signs of Spring. The children will take a nature walk, looking for signs of Spring. The shelf jobs will be reintroduced and reviewed, helping the children to master them. We will rote count to 50 and for science we will make a rainbow.

Craft and Writing

Spring will be in full bloom this week as the children welcome the new season. Watch as our class focuses on our Spring color of choice, **YELLOW**. We will do plenty of review this week incorporating Spring!

Motor

Finally, Spring is here! Weather permitting, our outside time will be packed with action as we play the games hopscotch, red light-green light and relay races. Our obstacle course will move outside and will include slides, swings and running activities. Please dress accordingly.

Attention Parents

On Thurs. and Fri. March 18th & 19th the Pre-K room will celebrate the arrival of Spring. We call this special day Color Day and celebrate by wearing a color chosen by the class. The color **GREEN** was chosen this year.

Happy Birthday
Valentine Scorzo 3/18

Spring Break

March 29-April 2

No preschool classes.
