

Junior Journal

Theme: Earth Week

April 19, 2021

During Earth Week, we will discuss ways to keep Mother Earth healthy and clean. Our discussions will also focus on the importance of recycling. The letters U & V will be introduced this week.

Introducing Mrs. Julissa!

We would like to introduce a new member to our team, Mrs. Julissa! She will be teaching the Craft & Writing class on Monday, Wednesday, and Friday. Ms. Julie was a Junior teacher last year before Covid began and has been e-learning with her own children until early April.

We are very excited to have Mrs. Julissa back in our classroom!!!

Language Arts: To enhance our *Earth Week* discussions, we will read stories to help the children understand the importance of recycling and not littering. Our theme table will include recyclable items such as newspaper, plastic bottles, and soup cans. We will utilize our picture file for our discussions.

Concept: We will discuss ways to keep the earth clean. In a recycling activity, the children will place items in the appropriate containers: glass, paper, and aluminum. We will pour vegetable oil into the water table to show the children what happens when we pollute our Earth's precious waters.

Craft & Writing: We will practice our printing skills as we trace all the letters we have learned so far this year, and add our two new letters introduced this week. We will also work on a special project for Earth Day.

Motor: The students will participate in parachute play this week. Hopefully, if the weather cooperates, we will be spending a lot of time outside.

Important Info

Hearing & Vision-April 26 & 27. Don't forget to return your form.

Spring Show-Tuesday, May 25. More info to follow.
