**Language Arts:**

We will introduce the children to more fish and other sea creatures. The children will enjoy listening to a few different ocean books. We will also be working very hard on our reading stories.

**Motor:**

The children will be playing a follow the directions game and doing an ocean obstacle course. Since the weather is getting nicer, we will be going outside more, so please dress your child

appropriately.

**Concept**

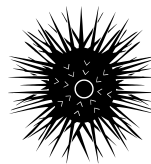

This week we will play a game called "What's Missing?" There will be several objects out in front of the group and one child will be called up at a time to participate. A child will be asked to close his/her eyes as their teacher takes one or two objects away. Each child will have a chance to guess which object was taken away. The children will continue to review the

numbers 1-20 throughout the week. We will also work on doing simple addition.

**Craft and Writing:**

We will have lots of fun making some ocean animals for our crafts this week. Our readiness papers will help us review the letters, numbers, and shapes that we have learned so far.
