

PRE-K UPDATE

Week 37

April 26-30 Topic: Insects

Motor

The children will keep on track this week, our outside track that is! The children will enjoy running, skipping, hopping, walking and relay racing around the track. To add some difficulty to our relay races. Mrs Ann will have the children pass the bean bags and balls. The color ladder will be used to review concepts we have learned.

Concept

Mrs. Ann has the bug jars out and ready to go. As I'm sure you can imagine going on an insect hunt outdoors is sure to be a favorite activity for the children. Among other activities, an insect matching game will be an exciting introduction. We received our caterpillars! We will be learning all about the life cycle of a butterfly.

Language Arts

Our topic of discussion centers around insects. A "buggy" review and many fun stories will be enjoyed this week. We will go on a letter bug hunt around the room. We have been enjoying music and have been practicing very hard on our year end program songs. Have a Bee-u-tiful week.

Craft and Writing

The children will put their visual skill to the test as they complete a picture that has already been started for them. Water coloring and easel painting will be enjoyed. Be on the lookout for an insect craft this week. We will continue to work on name printing. The children are doing a great job. If at any time you would like printing papers to practice at home, please feel free to ask.

Teacher Appreciation Week is May 3-7

THANK YOU!

ATTENTION! – Year End Program is
