

# Junior Journal

Week 38 May 31 Topic: Spiders

Concept: Class discussion will involve the different characteristics of spiders. Facts will include how many legs they have, where they live and what they eat. Mrs. Hollie will use assorted bugs to make different patterns.

Language Arts: A new fingerplay titled "The Teeny, Weeny Spider" will get us ready for our new theme. Our fables and morals will be reviewed in for form of a question and answer session in the Language Arts room this week. Many of our favorite review games and stories will be enjoyed. Ms. Celia has the children practicing all of their program songs, prepare to be delighted!

Craft and Writing: Spiders will be crawling all around in Mr. Celia's room this week. Our readiness papers will help us with our tracing skills. It's going to be a creepy, crawly week.

Motor: Feet and hands will be busy as the children practice bouncing and catching balls, playing hopscotch and having various types of relay races. Some different kinds of races are scooter races, a broom relay and a kicking relay. A review game of Toss Across will help reinforce all of our concepts.
