Let's Blast into Space!!

Craft and Writing:

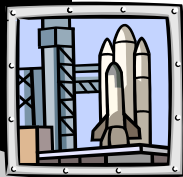

During the next two weeks of our outer space theme, the children will enjoy creating several outer space art projects! They will have fun marble painting rocket ships and collaging planets and suns.

Motor: The children will experience what it's like to be an astronaut in space when we use the trampoline. We will have fun discovering gravity!

Language: The children will be learning about the solar system through new flannel board stories, sing alongs, and books. They will learn "I'm a Little Rocket" that explains an astronaut's journey into space.

Concept: They will practice counting by listening to "The Five Little Men in a Flying Saucer" which will help them count from one to five. Also, we will have fun counting stars, planets, and moons.

Hope you have an Out of this World Two Weeks!
Mrs. Nicole & Ms. Morgan
