Feb. 28-March 4 Week 29

Theme: SQUISH, SPLASH, SPLAT

Introduce: Triangle

This will be a very exciting week of sensory exploration. Sensory bins will be full of new and exciting textures. Squishy play dough will be enjoyed one day and then a gooey dough the next. Our art room will be a messy good time as we try drop splat art! We'll do some group art as we create a "Triangle Tree" for our bulletin board. A silly Triangle Pizza craft will make its way home this week.

A game of Bug Splat will be an exciting way to learn our new shape triangle as well as reinforce circle and square. Many fun counting activities will help us to understand our numbers one through three. We'll be counting squishy tall towers as we stack foam blocks with shaving cream at the tables. A new flannel board story Hickory, Dickory, Dock will help us reinforce our numbers. The class will also enjoy tapping to this song with our rhythm sticks again this week. Stomping, jumping and walking feet will provide plenty of gross motor fun indoors as we practice using our listening ears during music time. Keep your fingers crossed for warmer weather! Don't forget to send mittens and hats so we can enjoy the fresh air and some much needed sunshine! Only three more weeks until Spring!
