

# Two's News

September 19-23

Week 6

Theme: Fall

## Language Arts

Ms. Leah's flannel board will come to life as we enjoy the stories 5 Furry Squirrels and Trees Are Changing. We will enjoy music and various fall fingerplays and songs including "Leaves Are Falling" and "Roll That Pumpkin". Fall books will add to the fun.

## Concept

We will talk about the changing seasons this week. We plan to enjoy plenty of fresh air as we head outdoors on a nature walk. In our backyard the children will look for acorns and begin to notice the changing leaves. The children will enjoy a sorting game planned that uses fine motor skills to pick up yellow and green pom-poms and put them into the correct colored apples. Your child may bring in a fall object to add to our science table, such as a gourd, pumpkin, acorns, etc.

## Motor

It's time to bring balls out to help the children learn to catch and throw. We will have the children practice the stairs, as we help them alternate feet going both up and down. We will be playing Simon Says to reinforce using our listening ears.

## Craft and Writing

Our little artists have been very busy creating all sorts of messes and masterpieces, and this week will be no exception. The children will use Q-tips to make a Fall tree for the refrigerator. We will introduce the colors green and yellow this week. We will have the children paint and color with our two new favorites.

**Please bring in a photo of your child enjoying the beautiful, fall weather.**

**No School Monday, October 10<sup>th</sup> for annual all staff In-Service Training.**

### What's New This Week

**Introductions: Green and Yellow**

**Bits of Intelligence: Flowers**

**Manners: Try to share**
