**Language Arts:** All aboard! Over the next two weeks, our class will discover and learn more about the several exciting forms of transportation! Transportation is how people travel and get to new places. We will look closely at cars, trains, boats, airplanes, bicycles, and school buses! There is so much fun in store for us throughout the next two weeks. We will look at think links and our picture files as we focus on real life pictures of transportation. Towards the end of the week, we will discuss our favorite ways to travel.

**Craft and Writing:** We have been busy practicing to trace our name papers and we are working very hard! Please continue to practice your writing skills at home. Cars, trucks, and planes oh my! Transportation is our theme this week and will be incorporated into our papers. Get ready to put your creative skills to the test as we make some transportation art!

**Concept:** Our class will enjoy playing a fun estimation game called Kookaburra and will be able to estimate how many Kookaburra took. We will also continue on working with our positional words involving our theme of transportation.

**Motor:** We will focus on a fun new path activity involving our action words. We will also play a game of Red Light, Green Light using our scooters.
