Language Arts

During the next three weeks the children will be listening to several *Gingerbread* stories. We will compare and contrast stories, talk about the characters and the settings in each story. We will also review the alphabet, rhyming words and build-a-word, word families and compound words.

Math & Science

The following concepts will be used while talking about the *Gingerbread* stories; building, graphing, estimation and patterning. In Science, we will do many experiments involving gingerbread. We will also work on adding and ordinal numbers.

Craft & Writing

The children will enjoy making a gingerbread boy/girl craft, a gingerbread house and a directed drawing of a gingerbread. Throughout the three weeks we will label a gingerbread, learn about adjectives to describe a gingerbread and work on writings about gingerbread.
