- Expressive Vocabulary — generous — 1. willing and happy to share. 2. large, abundant heed — to pay careful attention to and obey.
- Bits of Intelligence — Presidents
- Fable — Jupiter and the Monkey

Language Arts

This week, we begin a new unit on health. We will begin by focusing on doctors and nurses. We will learn how these important helpers work together to keep us healthy and heal us when we are sick. We'll discuss the training they need to perform their jobs, where they work, their tools, and their duties. We will also introduce our IP word family this week.

Math / Science

Tick-tock, tick-tock, go the hands on the clock! This week, we will learn how to tell time to the hour. We will learn how to read the time by looking at the two hands of the clock. The little hand tells the hour and should be read first, while the big hand tells the minutes and is read last. We also see how we can print the time using numbers. Work will continue our work on addition, and the class will also discuss winter and the changes it brings to animals and the environment.

Student of the Week

January 8th – Nathan Salas

Important Dates

January 10th- 100-day projects due

January 12th – 100-day party!

Wishing everyone a Happy and Healthy New Year!
