

SUMMER CAMP NEWS

Weeks 1 and 2: June 10-21, 2024
Theme: Gardening...Ready, Set, Grow!

We'll STEAM into Summer Camp with our first two week theme, Gardening. The children will be getting their green thumbs dirty as they learn about seeds, what plants need to grow, and that many of the foods we eat grow in gardens.

Language Arts:

Story books, poems, songs, and flannel boards will teach the children the fruits and vegetables that grow in a garden. The children will learn to identify different healthy foods, learn the names of gardening tools, and the clothing one should wear while gardening. Mary, Mary, quite contrary, how does your garden grow?

Concept:

The children will be sorting fruits and vegetables by size, shape, and color. As we cut open several fruits and veggies, we will focus on seeds, and counting them. We will learn that it not every seed is the same size and color. The children will also get a chance to plant seeds of their very own.

Motor:

We'll be on the go again these two weeks. Our little gardeners will take extra note of the scenery outdoors.

Craft and Writing:

Flowers, seeds, plants, and foods will be the focus of our projects. We'll use crayons,

Markers, glue, and scissors these weeks. We will even use vegetables to paint!

STEAM:

Our little gardeners will enjoy planting as we turn the classroom and playground into a garden. Several hands-on activities will help the children learn the ins and outs of planting and gardening.
