Week 14 Nov. 11-15 Theme – Pets (part 2)

Introduction – Number 3

The class is loving all of the pet books and songs so we are going to continue the fun. There still is time to send in a picture of your pet. The class is enjoying looking at their furry friends on the board and I even hear them saying their name. Yay for building language skills!

We'll add some rhythm sticks into circle time this week as we practice counting and tapping the number 3. We will also sing along to The Three Little Kittens song. Will they find their mittens?

A new fish game will excite the children as they practice taking turns sorting colored fish into bowls and counting them.

Art class will be loads of painting fun as we paint the number 3 and count 3 pet stickers to put onto the page. An adorable puppy dog craft will be made this week as well.
