

# Lockport Kindergarten Newsletter

Week 24 January 20–24, 2025

## Arctic Animals

Simple subtraction

Telling time by half hour

### LANGUAGE AND READING:

This week the children are going to learn about arctic animals. We will learn what it means to hibernate and which animals do so. There are plenty of books, pictures and fun facts to be shared pertaining to arctic animals.

The class has been doing a great job on reading and spelling CVC words. Please practice at home. Lastly, new blends will be introduced.

### CONCEPT:

Concept time will be a lot of fun this week as the children take part in hands-on science experiments. There will be an arctic animal rescue experiment as well as an experiment on how arctic animals stay warm. As always, the children will get to work off the shelves. Simple subtraction jobs will be added. We will practice addition and learn to count by 2's.

### CRAFT AND WRITING:

During craft and writing this week we will create an adorable penguin craft. We may make igloos out of marshmallows too. We will work on plenty of readiness papers, making sure that we take our time and do neat work. We will also start whole group writing this week.

### PARENT NOTES:

On Monday, the children will celebrate Dr. Martin Luther King Day.

We do go outside occasionally in the snow. Please make sure your child has the appropriate outside gear.

Open registration has begun for summer camp and the 2025 school year. Pay fall registration fee by Feb. 15 and receive 1/2 off.
